Typi non habent claritatem insitam; est usus legentis in iis qui facit eorum claritatem. Investigationes demonstraverunt lectores legere me lius quod ii legunt saepius. Claritas est etiam processus dynamicus, qui sequitur mutationem consuetudium lectorum. Mirum est notare quam littera gothica, quam nunc putamus parum claram, anteposuerit litterarum formas humanitatis per seacula quarta decima et quinta decima. Eodem modo typi, qui nunc nobis videntur parum clari, fiant sollemnes in futurum.

A Heritage of Excellence

Rapport is a family run business with more than a century of expertise in the horological market. The company was founded in 1898 by Maurice A. Rapport who was an energetic young entrepreneur keen to make his mark on an age that thrived on innovation.

His skills lay in the manufacture of prestige timepieces and it did not take long for the name of Rapport to become a household name in clockmaking throughout the world.

The Company Founder, Maurice A. Rapport

Four generations later the business remains a private limited company and is proud to continue the philosophy laid down by the founder of innovation, quality and service. Investment in technology, craftsmanship and the quest to source the highest quality materials ensures Rapport's commitment to produce world class products.

Rapport was also a pioneer in the growing market of Automatic Watch Winders. Back in the 1980s our designers produced the blueprints for a range of revolutionary winders with advanced mechanics to keep automatic watches fully wound – and it was our craftsmen who made the cases come alive with the skill and expertise inherited from their clockmaking work.

Today the Rapport range of Watch Winders has gone from strength to strength, with more technologically advanced motor-drives and a wide range of styles and material combinations to choose from - it is a range our founding father would be proud to be part of, and we are sure there is a model that any lover of prestigious watches will be proud to own.

Watches

RAPPORT of LONDON has created the Portman collection to enable lovers and collectors of fine jewellery and watches to store their treasured possessions in secure luxury.

Each collector box or case is crafted using the finest quality materials and is designed to offer the best possible protection for the contents whether used for storage at home or whilst travelling.

The cases are of sturdy wood construction finished in a choice of leather or high gloss wood laminates. They are lined with a soft velveteen to prevent scratching or marking of jewellery and watches. Models with multi compartments are ideal for separating individual items of jewellery for further protection.

The watch collector boxes are complete with shaped, soft cushions which are adjustable to suit any size or style of watch strap.

The Portman collection includes a range of watch rolls and slip cases finished in genuine leather with an embossed crocodile skin pattern – an ideal solution to prevent your prestige watches being knocked or scratched whilst travelling.

There are models to suit all tastes and pockets in the Portman Collection and you can be assured they are all made to the same exacting standards for which RAPPORT of LONDON has an enviable reputation.

The Rapport Portman Collection cares for those watches precious to you.

PORTMAN SLIPCASES

Sturdy cases with a genuine leather covering embossed with a crocodile skin pattern and finely stitched at the edges. Slide out drawer with velveteen lined, shaped compartments to hold watches separately and securely. An essential accessory for the seasoned traveller.

A Heritage of Excellence

RAPPORT is a family run business with 116 years of expertise in the horological market. The company was founded in 1898 by Maurice A. Rapport who was an energetic young entrepreneur keen to make his mark on an age that thrived on innovation.

His skills lay in the manufacture of prestige timepieces and it did not take long for the name of Rapport to become a household name in clockmaking throughout the world.

Four generations later the business remains a private limited company and is proud to continue the philosophy laid down by the founder of innovation, quality and service. Investment in technology, craftsmanship and the quest to source the highest quality materials ensures Rapport's commitment to produce world class products.

Rapport was also a pioneer in the growing market of Automatic Watch Winders. It was in the 1980s our designers produced the blueprints for a range of revolutionary winders with advanced mechanics to keep automatic watches fully wound – and it was our craftsmen who made the cases come alive with the skill and expertise inherited from their clockmaking work.

The Portman collection evolved from the Watch Winder range - indeed, most of the finishes are available in both ranges to allow you to choose matching cases if you require both a collector box and a watch winder.

Portman is a range which would certainly find the approval of our founding father, and we are sure there is a model that any aficionado of prestigious watches will be proud to display his precious collection.
