

# RAPPORT LUXURY SAFES

Unique Solutions To Protect Your Valuables

*Rapport*  
LONDON

## HERITAGE OF CRAFTSMANSHIP

Rapport is a family run business with more than a century of experience in the horological and luxury products markets. The company is well versed in offering clients the highest levels of craftsmanship, security and customer service.

### Traditional and High Tech Skills

The traditional skills employed in the Rapport product range merge with the engineering expertise of our Safe manufacturers to produce a unique, bespoke solution for the most discerning clientele.

Our executive team offers a personal and bespoke service and monitors each safe through every stage of its development. All safes are manufactured in the UK with stringent quality control at every stage of their construction.

### BRITISH MADE

Rapport's designers have utilised the skills of leading British safe manufacturers to help create this range of luxury safes.

Only the finest components and craftsmen are used in the production of your own unique safe - no two safes are the same.

In this day and age of globalisation Rapport proves yet again that 'British Made' is still a recognised mark of quality and reliability.

### GRADED SAFES

Rapport offer a complete range of graded safes which are tested to LPCB and VdS standards.

If you have a particular insurer's requirement to meet, our experts are available to ensure that you not only get the best advice but the best product available.

Each model in our Luxury Safe range has a minimum overnight valuables rating of £100k and offers 60 minutes fire resistance. Please contact us if you require more details in this respect.

### SECURITY WITHOUT COMPROMISE

From the fabrication of the safe to the hand-crafted finish of the interior, our attention to detail of each process results in an exemplary fusion of craftsmanship.

Rapport Luxury Safes are not only beautiful to look at, but they offer a high level of security. Only the finest materials are used in their construction, with purpose made fittings and hand finished detail adding value and authenticity.

With so many options available your Rapport Luxury Safe will be truly unique.

- ◆ Options on locking available
- ◆ Manufactured under ISO9001
- ◆ Virtually any colour
- ◆ Choice of internal layout
- ◆ Live and passive relocking devices
- ◆ Fire tested to BS476
- ◆ Wide choice of interior lining
- ◆ Wide choice of veneers

Interior Layout Options

STANDARD SIZES

Rapport Luxury Safes are available in three 'Base' sizes as shown in the diagrams on the left. Our experience shows that these are the most popular sizes requested.

Also illustrated is a suggested interior layout for each size. In fact, as each safe is manufactured to individual requirements we are able to offer almost any combination of drawers and watch winders.

When you embark on deciding which safe is best for you we will discuss the details with you and present you with a CAD drawing of the proposed safe before manufacturing starts.

### THE CHOICE IS YOURS

The level of choice we offer is extensive. For the interior, choose your preferred wood finish, decide on the number of drawers, and then specify the compartments within them – all lined with Alcantara® in the colour of your choice.

You can choose to include any number of Automatic Watch Winders (up to the space available) which will maintain your watches' accuracy whilst they are secure within your safe.

The choice of options we are able to offer looks bewildering but, rest assured that our experts are always on hand to help guide you through the design process.

### OPTIONS

- ◆ Automatic Watch Winders with run-silent motors
- ◆ Powered by DC adapter
- ◆ Independent controls for each watch winder
- ◆ LED lighting
- ◆ Gold or Chrome plated fittings
- ◆ Choice of interior lining
- ◆ Choice of veneers for internal furniture

### Drawer Layout Options

## LADIES' & GENTLEMEN'S

For any form of security to be useful, it has to be convenient. With this simple fact in mind, Rapport's engineers have developed our Ladies' and Gentlemen's safes. Made in the UK and hand-finished to the same high standards as our larger models. These compact units provide discrete protection for smaller personal items, and they fit snugly away in the smallest of spaces whilst protecting their contents against theft and fire.

- ◆ Interior lighting
- ◆ Alcantara® Lining
- ◆ Gold or Chrome plated fittings
- ◆ Base fixing (if desired)
- ◆ Exclusive hand-made key
- ◆ Overnight valuables rating up to £40,000

Exterior Dimensions (mm):  
357 high x 305 wide x 264 deep  
Weight: 25kg

### THE LADIES' & GENTLEMEN'S SAFE

Exterior surfaces are a deep lustre finish with 24ct gold plated fittings. The interior is lined with Alcantara®.

The Ladies' Safe is antique white with a gold border on the door and a royal purple interior.

The Gentlemen's Safe is Ferarri Red with a gold border on the door and mist grey interior.

*The Evolution Watch Winders and Portman Watch Case, from Rapport, seen in the photos above are not included with the safes.*

# BESPOKE OPTIONS

Rapport Safes are supplied to your own unique specifications under the guidance of our expert team. You choose every aspect, from its size to the colours and the interior layout and lining. We realise how important it is that your safe matches your exact requirements and we can even match your home decor or even your favourite car. The choice is yours.

## COLOUR RANGE

The exterior of your personalised Safe is sprayed to a deep lustre finish to ensure it will withstand many years of use. You can choose practically any colour including metallic and pearl finishes. Below is a small selection from the RAL palette of colours as a guide.

9003 Polar White	3015 Rose	1014 Buff
3003 Claret	3020 Fiery Red	1021 Yellow Zing
8011 Rich Chocolate	1007 Orange Zest	1027 Antique Gold
7006 Warm Grey	6011 Sage	6002 Racing Green
7005 Cool Grey	7024 Airforce Blue	6028 Emeral Green
5019 French Blue	5003 Navy Blue	9005 Ivory Black

## ALCANTARA®

We only use Alcantara® to line the interior surfaces of our safes. It is a unique material with a smooth suede feel, it will protect your precious jewellery from damage yet it is robust enough to withstand constant use. It is also gorgeous to the eye and you can choose from a wide range of colours.

## REAL WOOD VENEERS

For that perfect finishing touch we face the jewellery drawers and edges with fine real wood veneers. The final surface is given several coats of high gloss lacquer and hand polished to a diamond hard shine.

Note: The swatches shown above are the most popular choices we are often asked to provide but they are just a small selection of what we can supply. We will supply colour samples and swatches on request.

## WATCH WINDERS

Essential to keep your automatic watches fully wound and accurate while locked safely away. Choose how many you want. Watches are held on a fully adjustable clip that has a leather covered soft pad and rubber grips and which slot into cups inset into the body of the winder. The winding motors are the highest quality, they run virtually silent and are powered using the DC adapter or battery backup. The controls offer various modes of operation such as direction of rotation and timing options suitable for all automatic watches on the market today.

The metal fittings of the winders are available in gold plated or chrome.

## INTERIOR LIGHTING

For convenience when you are accessing the contents of your Safe we are able to add an array of LED lights

### HOW TO ORDER

We have a comprehensive order form on which you can choose all the options at your leisure - but we would advise that you "Talk to us". Our experts will guide you through the ordering procedure and send you confirmation of the design for your approval before construction starts.

### DELIVERY & INSTALLATION

We have our own delivery teams who can deliver, install and commission your new safe. Because of the size and weight of the safes, we will usually need to carry out a pre-installation survey. Otherwise we can arrange delivery direct to your own agent.

## OUR PROMISE

Rapport promises to provide a Luxury Safe built to your personal specification and we will always strive for your complete satisfaction.

We can vouch for all materials used in the manufacture of our safes, they are always the finest quality and they undergo stringent quality control before, during and after the manufacturing process.

We ensure that the integrity of our safes comply with European standards to give you many years of complete satisfaction and peace of mind.
